

Nutrition You Can See™

Proven Ways to Increase Dogs' Mobility and Enhance Wellbeing

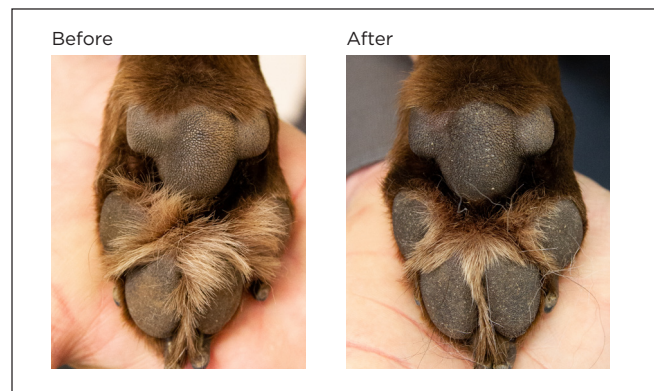

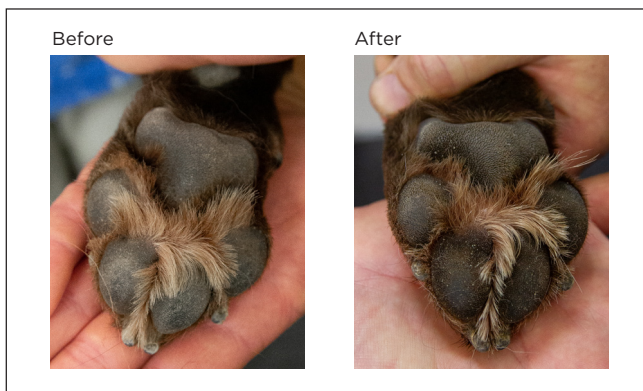

A Difference **They Can Feel**

Dogs are meant to be active animals. Zinpro® offers pet parents solutions and products that have unrivaled mineral absorption shown to transform paw pad thickness, resulting in a more mobile and active pet. **It's a difference your pets can feel, and you can see.**

Zinpro Improves
Paw Pads
and **Mobility**

Paw Pad Thickness

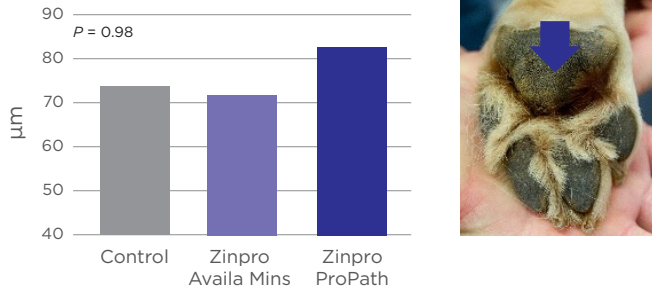

Senior dogs fed Zinpro® ProPath® resulted in improved paw pad integrity and pad thickness after 12 weeks.

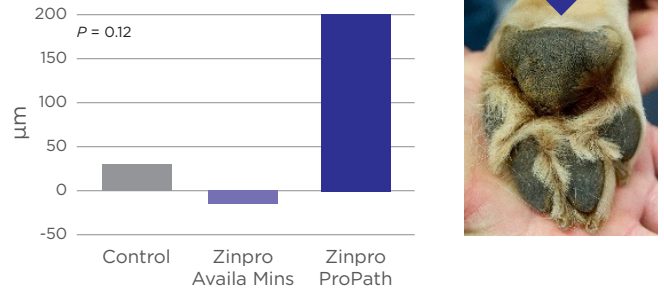

Enhanced Mobility

Our proven Zinpro® Performance Minerals® provide the nutrition that supports bone and joint health for improved mobility. Trace minerals play a vital role in bone & cartilage health, development and maintenance. Healthy bone and cartilage result in healthier and more active dogs.

Boosted Activity

Dogs fed Zinpro® increased their activity per day by 35 minutes, including an additional 5 minutes of active play time. Dogs were monitored by a FitBark™ activity monitor that recorded their hourly activity.

+35 Minutes of Activity
